

## Rhiw Valley Light Railway "The line that Jack built"

*The Rhiw Valley Light Railway is a 15" gauge steam railway situated in the Rhiw Valley on the B4390 between the villages of Berriew and Manafon. Founded in 1970 by Jack Woodroffe, the railway is currently home to steam engines 'Powys' and 'Jack', ably supported by petrol engine powered 'Monty'.*

*The railway winds its way for about ¾ of a mile around Lower House Farm, travels past the kitchen garden and follows the bank of the River Rhiw where you may be able to spot kingfishers, dippers and sand martins. The tracks bend around the top of the farm past grazing sheep giving splendid views of the surrounding hills often accompanied by soaring buzzards and red kites. The train returns past coppices to the station by the side of the house.*

*This is a great way to spend a few hours. You can ride as many times as you like on the train or go for a walk by the side of the river watching the trains pass as you admire the wonderful river Rhiw.*

*Tea, coffee, cold drinks, homemade cakes and biscuits are served while trains are running or you can just sit in the gardens and enjoy the sounds and smells of a steam railway.*

*There is ample free parking available and dogs are welcome as long as they are kept on a lead.*

*The railway is run by a dedicated team of enthusiasts who are always looking for volunteers to join their ranks. There are ambitious plans to upgrade the station area with a covered waiting area and a heated ticket office which will be situated close to the station platform. The addition of a turntable will provide more flexibility for running. Anyone interested can learn more from the railway's web site [www.rvlr.co.uk](http://www.rvlr.co.uk) or just turn up on one of the open days and have a chat with one of the staff.*

*This unique narrow gauge steam railway is an absolute joy and a must visit attraction.*
